Buy a Fluke Ti300+, Ti401 PRO, Ti480 PRO, TiX501, or TiX580

Get a FREE 2x telephoto or wide-angle lens

Don't settle for less than 100%

With Fluke thermal imagers, you get the job done right the first time, every time! Be impressed by superior image quality and gain confidence knowing you have the industry's most accurate, reliable, easy-to-use and rugged IR thermal imager in your hand.

Eliminate out-of-focus images
LaserSharp® Auto Focus, exclusive to Fluke, uses its built-in laser distance meter to calculate the distance to your designated target with pinpoint accuracy, every single time!

Don't miss a single detail
Fluke IR Fusion™ technology captures a digital image and infrared image at the same time, then precisely matches them pixel by pixel to give you more detail.

Keep your data safe and save time
Wirelessly sync images from your camera to the Fluke Connect™ system and attach them to asset records or work orders, or even send them to a colleague to collaborate while in the field

Learn more about how Fluke thermal imagers and specialized lenses can help you solve problems.

Additional terms and conditions apply. Please refer to the terms and conditions at www.fluke.com/en/freefluke.

CLOSE THE GAP in thermal detail with a Fluke interchangeable, self-calibrating telephoto/wide-angle Smart Lens™

Envision yourself capturing images of intrinsically safe zones, areas too hot to get close to or tall stacks at a refinery or similar manufacturer.

With Fluke Smart Lenses™ you identify anomalies early and help prevent downtime, perhaps even more catastrophic results.

Stay safe and expand your field of view
With a 2x telephoto or wide-angle lens you can identify and investigate problem areas and components otherwise invisible with standard lenses. The lenses determine how efficient infrared energy is transmitted.

Quick and easy-to-switch
Fluke Smart Lenses™ are interchangeable between cameras and the sensor remains safe from exposure when the lens is removed. Fluke Smart Lens optics contain 100% diamond-tuned germanium.

No follow-up costs for calibration
Continue to shoot images near and far, for the long term. Fluke Smart Lenses™ require no calibration of the thermal camera and give you the versatility and image quality you need to conduct inspections in nearly every environment.

Buying a Fluke Ti300+, Ti401 PRO, Ti480 PRO, TiX501 or TiX580 will offer you the great opportunity to claim a 2x Telephoto Infrared Smart Lens or a Wide angle Infrared Smart Lens for FREE.

Order your Fluke thermal imager today through an authorized distributor and receive a free Fluke lens.

How to get your free lens from Fluke:

1. **Buy a qualified Fluke thermal imager between 1 September 2021 and 15 December 2021.**
   - Purchases must be made from an authorized Fluke distributor.
   - Proof of sale in the form of a receipt or invoice is required. (Packing slips, purchase orders/order confirmations are not acceptable as proof of purchase).
   - Qualified Fluke thermal imagers include: Ti300+, Ti401, Ti480PRO, TiX501, and TiX580.
2. **Contact your local Fluke Authorized Distributor to get the free lens**
3. **Receive and enjoy your new Fluke lens!**
